Introduction

Intuit ProFile Tax software is reliable and easy-to-use, and it offers sophisticated features that help tax preparers experience a more productive tax season. The following paragraphs summarize the key components of Intuit ProFile Professional Tax software.

ProFile T1 imports and converts data created by competing software products. Whether you carry files forward individually or in batches, you will find the process quick and convenient. Using ProFile’s WYSIWYG (what you see is what you get) forms, you can view and edit federal T1 and Québec TP1 forms in either French or English. You can also print all tax forms in either language at the click of a button.

ProFile T2 is designed for professional preparation of corporate tax returns in all provinces and territories. ProFile T2 includes:

- Federal T2 returns, including T2 RSI (for 2006-2009 and earlier) and Corporation Internet Filing
- Provincial corporate tax returns for Alberta (including AT1 RSI), for Ontario returns with taxation years ending prior to January 1, 2009 (including CT23 disk filing) and for Quebec (CO-17).
- Provincial capital tax returns for Manitoba, Saskatchewan and British Columbia

ProFile T3 prepares Trust income tax returns and supporting schedules, including T3 and T5 slips that the trust receives. Simply enter slip information on intuitive income-reporting screens and ProFile T3 automatically transfers the amounts to the appropriate forms. ProFile T3 also integrates business and rental income statements. In addition to T3 slips, the software allows you to prepare NR4 slips for non-resident taxpayers (including the NR4 summary).

ProFile FX (Forms Expert) gives you more than 80 of the most commonly-used CRA forms which supplement the form-sets in Intuit’s other tax applications. Here are a few highlights of ProFile FX:

- Customizable options help you complete and file the forms you need.
- Automatic form selection facilitates form printing.
- Audit and review features help pinpoint potential errors.
- Forms flexibility lets you print facsimile forms on plain paper or directly onto pre-printed CRA forms. ProFile FX also prepares magnetic media files for T4, T4A, T5, T5018 and NR4 slips, as well as for the RL1, RL2, RL3 and RL4.
- Import identification from an existing ProFile T1 or T2 data file minimizes potential data entry errors.
Benefits of Using ProFile

ProFile is powerful, efficient and secure tax software that helps you get your work done fast and efficiently. Here’s how you benefit by using ProFile:

- With phone, email or in-product live chat support, you have year-round access to knowledgeable Canadian technical experts
- With its comprehensive set of forms and schedules, ProFile lets you handle just about every tax scenario in any jurisdiction, including Québec
- With a built-in auditor that runs up to 2,800 diagnostic checks of your tax returns, ProFile has your back
- Flexible Licensing means you can install ProFile on more than one personal computer without having to pay additional licensing fees
- Work with QuickBooks? So does ProFile! There’s no need for manual data entry because you can now export data from QuickBooks directly into ProFile

Plus, with ProFile you enjoy a consistent level of advanced features that include:

- Customizable client correspondence
- Database queries and reporting
- Online tools to quickly and easily stay in touch with your clients
GETTING ONLINE

Every day, more and more businesses are taking things online. Online information is part of our everyday lives. It should come as no surprise, then, that tax preparers too are increasingly using online tools. Canada Revenue Agency, for example, demands that tax preparers EFILE tax returns and, at the same time, with a dedicated Represent a Client account, CRA gives tax preparers online access to an array of client information that was unthinkable just a few short years ago. ProFile is building on this cloud trend as well. As a ProFile user, you have access to an increasing number of cloud tools. Let’s take a closer look:

The online toolbar
The Online toolbar sits permanently under ProFile’s Menu bar. Let’s explore these four icons:

- Click the Live Chat icon…

  … To engage a ProFile support agent and chat online

Click the Notification Centre …

… To view alerts, reminders and other ProFile messages

- Click the Online Settings to access ProFile’s online tools…
• …Including a service to back up your files online

Accessing your online account

If you have a ProFile account, getting online is quick and easy:

• From the toolbar, click the Online Settings icon and ProFile launches the sign-in window
• Click Sign In
• Enter your user ID and password
• Select your firm (or add a new one)
• Click Finish and you’re done
But I don’t have an online account
If you don’t have one, creating an online account is a snap:

- From the toolbar, click the Online Settings icon to launch the sign-in window
- Click Create Company
- Enter your credentials and then click Create account

1. From the toolbar, click the Online Settings icon to launch the sign-in window
2. Click Create Company
3. Enter your credentials and then click Create account
BACK UP TO THE CLOUD

To back your files up to ProFile’s cloud servers, you must first enable the feature:

- Click Environment > Options, select the Backup to Cloud tab and click the appropriate options. Note that you can choose to automatically back up all files upon saving.

- To manually back up one or multiple files from the Menu Bar, click Go to > Hub, select the desired files.
- Click the Actions dropdown and choose Back up to the Cloud.

AUTO-FILL MY RETURN

AutoFill My Return (AFR) is a secure Canada Revenue Agency (CRA) service that allows individuals and authorized representatives to automatically fill-in parts of a T1 return with information that the CRA has available at the time of filing the return. Many authorized representatives are already accessing CRA’s online services to gather client information. AFR is the logical next step. By filling in key tax data, CRA’s AFR simplifies the tax preparation process.

To use the AFR service, a tax preparer must:
- Register and be an approved electronic filer
- Register in CRA’s Represent a Client and have a RepID, GroupID or business number (BN)
- Have a valid Form T1013 Authorization Form (described in Chapter 3) for each client
It is important to note that AFR service is not mandatory for EFILE certified software products. Some products include the service in their product, but others may not. ProFile falls in the former category and has full AFR functionality.

Before you file a tax return with the CRA using the information delivered by Auto-fill My Return, you must make sure that all the proper fields on the return are filled in and that the information provided is true and accurate. If you notice a mistake on an information slip, contact the employer, payer, or administrator responsible for preparing that slip.

If you notice a mistake in the tax-related information, have an account-specific question about other tax-related information, or need additional information, call the individual income tax and trust enquiries line at 1-800-959-8281.

**Using AutoFill My Return (AFR)**

- With a client file open in ProFile, click *File > Import CRA Data*

- Click *Launch CRA Website*
• ProFile will open a browser and take you to CRA’s website
• Click CRA Login
• Enter your credentials
• Confirm CRA’s request then click Next
• Close the window to return to ProFile

Profile displays the Data Import Worksheet where you can select or deselect the information to import into the tax file
Click *Import Selected Data*.

Close the window that confirms the import is complete.

ProFile will list the imported information on the *Data Import Summary* form.

You have successfully used CRA’s Autofill My Return.

**ALL ABOUT ReFILE**

If you are an EFILE service provider, you can use ReFILE to EFILE T1 adjustments for tax years between 2015 and 2018. The ReFILE service lets you change the same lines that individual taxpayers can with the “Change my Return” service in CRA’s “My Account” portal.

**Who can use ReFILE?**

Preparers can use the ReFILE service if the following conditions apply:

- You have ProFile version 2016.4.3 or later (for tax years 2015 through 2018)
- You have level 2 authorization from your client
- The initial return was filed online (EFILE)
- The initial return was assessed
- You have acquired a new sign-off on a revised T183 from client
**What does the ReFILE service exclude?**
In addition to CRA’s standard EFILE and Change My Return exclusions, you **cannot** use the ReFILE service if the taxpayer:

- is amending an election or wants to make an election (for example, using Form T2057, Election on Disposition of Property by a Taxpayer to a Taxable Canadian Corporation)
- is applying for child and family benefits
- is allocating a refund to other CRA accounts
- is applying for the disability tax credit
- has a reassessment in progress
- has a first return that has not been assessed (you can view the Express Notice of Assessment (NOA); view the regular NOA on Represent a Client or My Account for Individuals; or have a paper NOA on hand to validate that a return has been assessed)
- is subject to provincial or territorial income tax in more than one jurisdiction
- the first return was filed by the CRA as a 152(7) assessment

You **cannot** use ReFILE to change page 1 of the taxpayer's T1 Income Tax and Benefit Return. Instead, individual taxpayers should use [My Account](#) to make changes to the following information:

- marital status
- address
- direct deposit
- email address

In addition, you cannot use ReFILE to change:

- a tax return that has not been assessed
- a tax return where nine reassessments exist for a particular tax year
- a bankruptcy return
- a return prior to the year of bankruptcy
- carryback amounts such as capital or non-capital losses
- a return of an international or non-resident client (including deemed residents of Canada, newcomers to Canada, and individuals who left Canada during the year)
- the elected split-pension amount
- a return where you have income from a business with a permanent establishment outside your province or territory of residence (you have to complete Form T2203, Provincial and Territorial Taxes for 2017 - Multiple Jurisdictions)

**Service limitations**
- The online system accepts only nine adjustments per tax year for each taxpayer, whether the taxpayer or you or CRA initiates the adjustments
- If you go over the limit, you will get an automated response saying the limit has been reached and explaining how to send a paper request
- Make additional requests on paper, preferably using Form T1-ADJ, T1 Adjustment Request, and mail them to the CRA

**Using ReFILE**
Before attempting to ReFILE a return, verify that you have a valid T1013 form—with level 2 authorization—on file with CRA. If CRA already has the authorization information on file, another filing of the T1013 is not required.

**To ReFILE a return**
- Open a T1 return that has already been filed online, and for which a CRA assessment has been received.
- Go to File >Save As... and save the file under a new name (optional)
- Enter the new information that mandates a ReFILE. If, for example, a client has received an unexpected T4, then enter that new information on ProFile’s T4 Slip
- After making the necessary changes to the tax file, press F4 to open Form Explorer and, in the Search field, enter T1ReFILE
Ensure the client information (SIN and Name) is correct 1

Enter the current date in the Date of ReFILE field 2

Select Yes for the line that reads … “Is this an amended tax return?”: 3

Note: failing to select the “yes” option will produce an error when attempting to ReFILE.

Answer any other relevant questions on the form

Note: these questions are not mandatory, and preparers are not required to provide answers. Any notices related to these questions may be ignored.

Before completing the submission, you must update the T183 Form

Open the T183 used for the initial EFILE of the return

A letter “R” now displays in the Year field indicating the form was referenced for ReFILE. This new designation is permanent and cannot be rescinded from the form
Acquire a new sign-off from the client on the updated T183 form prior to your ReFILE attempt

After the client signs the updated T183, click EFILE/ReFILE this return…

After the ReFILE process is successfully completed, ProFile will display a confirmation window
Confirming the ReFILE submission

ProFile enters the ReFILE confirmation number on the Info form to the return. It matches the number displayed in the ReFILE confirmation message.

- You can also confirm the history of the submission by selecting Properties option under the File menu

Review the history of the return; the ReFILE displays as an EFILE with the date of the ReFILE displayed in the Date field
