## Run a Balance Sheet Report

The Balance Sheet shows where your business stands as of one moment in time. It lists all of your balance sheet accounts in three sections: Assets, Liabilities, and Equity.

Assets are everything that the business owns. This includes fixed assets such as vehicles, as well as inventory and Accounts Receivable.

Liabilities are what the business owes to suppliers or people outside the business. These include sales tax payable, loan payments, and Accounts Payable.

Equity is what the business is worth to the owners. These include owner's contribution accounts, and retained earnings.

### Create a balance sheet report:

1. In the **Report Centre**, choose **Company & Financial, Balance Sheet Standard**.
2. Click the **Run Report** icon.
