Manual Upload of Transactions	6
Working with Banking Transactions in QuickBooks	9
Account Reconciliation	20
Transfers in QuickBooks	27

The **Banking** Centre in QuickBooks is the central location for managing your day-to-day banking transactions downloaded from your bank and credit card accounts. QuickBooks includes a powerful feature referred to as the “Bank Feed”. In other words you can connect your online bank and credit card account directly to your QuickBooks.

Instead of manually entering your QuickBooks transactions, you can download and add them directly to QuickBooks.

After adding all of your credit card and bank account transactions you’ll use the powerful bank reconciliation feature in QuickBooks. This chapter introduces you to these powerful features.

▶ Lesson Objectives

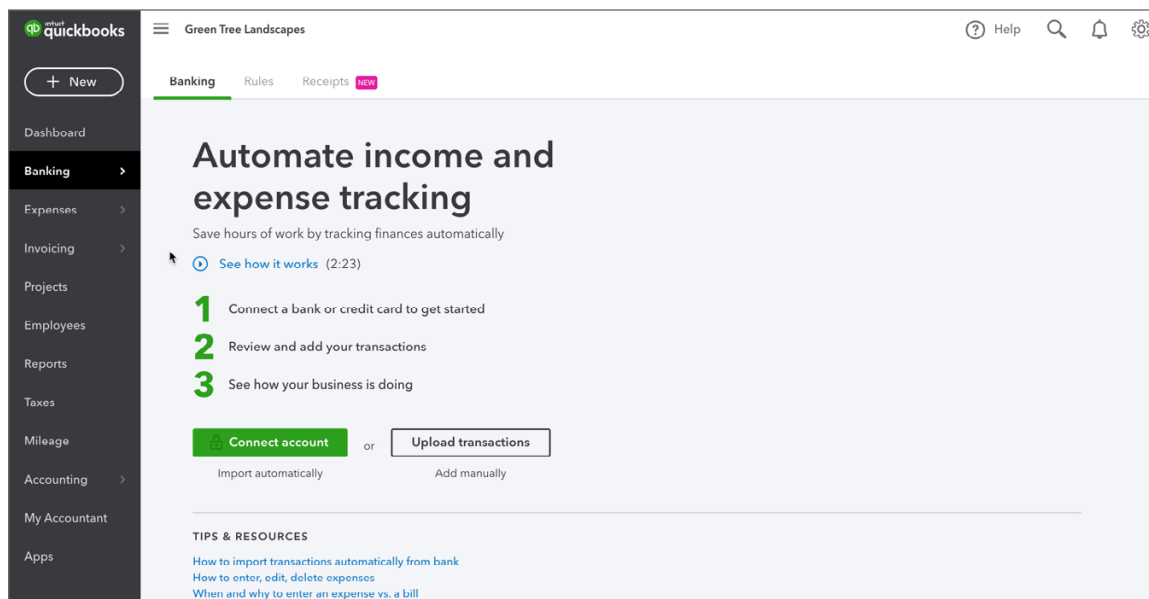

In this chapter, you’ll learn how to:

- Connect your bank and credit card accounts to QuickBooks
- Categorize transactions in the bank feed
- Reconcile accounts
- Transfer funds

▶ Connect Your Bank or Credit Card Accounts

You can connect your bank account or credit card to QuickBooks to automatically download transactions. You can connect chequing, savings, or credit card accounts, including foreign currency accounts, if you use a participating bank. To connect your bank for the first time:

1. Click **Banking**.
2. Click **Connect Account**.

3. Choose from one of the common banks or search for your bank in the **Search** bar.

Connect an account

Let's get a picture of your profits

Connect your bank or credit card to bring in your transactions.

Here are some of the most popular ones

At Intuit, the privacy and security of your information are top priorities.

Privacy

4. Enter your Banking or Credit sign-in information including the **User name** and **Password**. This is the same information you use when signing into your online bank or credit card account. QuickBooks establishes a connection with your online account.
5. Click **Continue**.

Connect an account

Sign in to account

Capital One Costco Mastercard(Canada)
<https://www.capitalone.ca/>
1-800-481-3239

Start by connecting your Capital One Costco Mastercard(Canada) accounts with Intuit, the makers of QuickBooks Online Edition.

Go to the bank site to sign in and connect your accounts. Then we'll return you here and bring in your transactions.

intuit

At Intuit, the privacy and security of your information are top priorities.

Privacy

6. You may need to add more information like a one-time code delivered to you via email or text. This depends on your financial institution.

7. QuickBooks asks you to **Select Account(s) to share**. Choose the account in QuickBooks that matches the online account.

The screenshot shows the Intuit authorization interface for Capital One. At the top, the Capital One logo is on the left, and a US flag with 'English' is on the right. The main heading is 'Intuit would like to access your account information'. Below this is the Intuit logo. The section 'Select account(s) to share' contains two options: a checked box for 'Platinum Mastercard account ending in 5386' and an unchecked box for 'Visa Signature Business account ending in 5757'. The checked option includes a sub-heading 'Intuit will access the following standard information:' followed by 'Account Name, Description, Balance, Account Transactions, Statement Date, Payment Details'. A paragraph of legal text follows, and at the bottom are 'Decline' and 'Authorize' buttons.

Capital One

Intuit

Select account(s) to share

☒ Platinum Mastercard account ending in 5386
Intuit will access the following standard information:
Account Name, Description, Balance, Account Transactions, Statement Date, Payment Details

☐ Visa Signature Business account ending in 5757

By clicking Authorize below, I have agreed to the [Terms & Conditions](#) and I am specifically directing Capital One to send my account information to Intuit on my behalf whenever requested by Intuit. I understand that Capital One will continue to do this until access expires or I ask Capital One to stop.

Decline Authorize

8. Choose the Date Range of data you'd like to import from the drop-down menu option.

The screenshot shows a 'Connect an account' dialog box. The title is 'Which accounts do you want to connect?'. It displays a selected account: 'XXXX5386 *5386' with a balance of '-\$2,499.01' and a dropdown menu set to 'Mastercard Capital One'. Below this, a message states: 'We will pull transactions from the selected accounts from 31/05/2020. Or you can select a different date to pull transactions from. Some bank limitations may apply.' A date range dropdown is open, showing options: 'Max available (31/05/2020)', 'Today (28/08/2020)', 'This month (01/08/2020)', 'Max available (31/05/2020)', and 'Custom...'. A green 'Connect' button is at the bottom right.

Connect an account

Which accounts do you want to connect?

Connect

9. Click **Connect**. QuickBooks displays the Banking window.

The screenshot shows the QuickBooks interface for a user named 'Green Tree Landscapes'. The left sidebar contains navigation options like Dashboard, Banking, Expenses, Invoicing, Cash Flow, Projects, Payroll, Reports, Taxes, Mileage, Accounting, My Accountant, Apps, and Time Tracking. The main area is titled 'Banking' and shows the 'Mastercard Capital One' account. It displays a balance summary with a blue box for the bank balance (\$2,499.01) and an orange box for the balance in QuickBooks (\$2,541.62). Below this, there are tabs for 'For review (51)', 'Categorized', and 'Excluded'. A search bar is present with the text 'Search by description or check number'. A table of transactions is shown with columns: DATE, DESCRIPTION, PAYEE, CATEGORY OR MATCH, TAX, SPENT, RECEIVED, and ACTION. The table contains four rows of transactions, each with an 'Add' or 'Transfer' button in the ACTION column.

	DATE	DESCRIPTION	PAYEE	CATEGORY OR MATCH	TAX	SPENT	RECEIVED	ACTION
<input type="checkbox"/>	27/08/2020	KLARNA *PAYMENTS		Uncategorized Expense		\$54.12		Add
<input type="checkbox"/>	26/08/2020	7-Eleven		Meals and entertainment		\$0.53		Add
<input type="checkbox"/>	26/08/2020	Amazon		Miscellaneous		\$14.06		Add
<input type="checkbox"/>	26/08/2020	PROSPER PRINT SHOP		Uncategorized Asset		\$138.56		Transfer

NOTE This may take a few minutes to make the connection between your online account and QuickBooks and then download the transactions.

QuickBooks downloads the transactions within the selected date range.

Manual Upload of Transactions

If you choose not to connect your accounts directly to QuickBooks Online you can upload your transactions manually using the upload feature. This will let you upload a select date range of your choice.

Many banks give you the ability to download a data file with your transactions. If the file is a QBO (Web Connect), QFX, OFX, or CSV file, you can upload it to QuickBooks. To upload a file manually:

1. Download the file from your financial institution to your desktop.
2. Click **Banking** and then click upload from the file.

3. Click **File upload**.

The screenshot shows the QuickBooks Online Banking interface for 'Sample Company'. The 'Chequing' account is selected. A green box highlights the 'Link account' and 'Upload from file' buttons in the top right corner. Below, a table of transactions is visible, including ATM deposits and expenses.

DATE	DESCRIPTION	PAYEE	CATEGORY OR MATCH	TAX	SPENT	RECEIVED	ACTION
30/06/2020	ATM DEPOSIT		Uncategorized Income			\$8,760.00	Add
23/06/2020	ATM DEPOSIT		Uncategorized Income			\$480.00	Add
23/06/2020	ATM DEPOSIT Ko		Uncategorized Income			\$1,800.00	Add
23/06/2020	Air Express		Uncategorized Expense		\$3,458.30		Add
22/06/2020	Hotel		Uncategorized Expense		\$371.60		Add

4. Click **Browse** to find the file on your computer. Click **Next**.

The screenshot shows the 'Bring your info into QuickBooks' dialog box. It offers two options: 'Get your info from your bank' (manual upload) or 'Securely connect your bank' (automatic connection). The 'Get your info from your bank' option is selected, showing a 'Browse' button and a 'Next' button.

Get your info from your bank

1. Open a new tab and sign in to your bank.
2. Download transactions: CSV, QFX, QBO, or OFX format only.
3. Close the tab and return to QuickBooks.

Select a file to upload

No file selected

OR

Securely connect your bank

1. More secure. No need to share files with bank data.
2. No work. Transactions come in from your bank automatically.

5. Choose the **QuickBooks Account** to upload to.

6. Click **Next**.

The screenshot shows a dialog box titled "Select an account" with a close button (X) in the top right corner. Inside the dialog, the instruction "Select a QuickBooks account for the bank file you want to upload" is displayed. Below this, there are two sections: "Bank file" and "QuickBooks Account". Under "Bank file", the text "2019-08-27_transaction_download.csv" is shown. Under "QuickBooks Account", a dropdown menu is open, showing "Capital One Mastercard" as the selected option. At the bottom of the dialog, there are two buttons: "Back" on the left and "Next" on the right, which is highlighted in green.

7. Map the appropriate QuickBooks Online fields to the fields from your bank statement. This means mapping the date, description, and amount columns.

8. Click **Next**.

The screenshot shows a dialog box titled "Map CSV columns" with a close button (X) in the top right corner. Inside the dialog, the instruction "For each bank account field, select a QuickBooks field" is displayed. Below this, there is a checkbox labeled "First row in .csv file is a header row" which is checked. The dialog is divided into two main sections: "QuickBooks Online fields" and "Your statement fields". Under "QuickBooks Online fields", there are three rows: "Date", "Description", and "Amount". Under "Your statement fields", there are three dropdown menus: "Column 1 :Date", "Column 2 :Description", and "Column 3 :Amount". The "Date" field is mapped to "Column 1 :Date" and the format "MM-dd-yyyy" is selected. The "Description" field is mapped to "Column 2 :Description". The "Amount" field is mapped to "Column 3 :Amount". Below these mappings, there is a link "CSV file has amounts in:" followed by two radio button options: "1 column: both positive and negative numbers" (which is selected) and "2 column: separate positive and negative numbers". At the bottom of the dialog, there are two buttons: "Back" on the left and "Next" on the right, which is highlighted in green.

9. QuickBooks completes the upload and now you're ready to accept the transactions.

▶ Working with Banking Transactions in QuickBooks

After you've downloaded transactions from your financial institution, you can categorize and add them to QuickBooks. For each downloaded transaction, QuickBooks Online analyzes all the information received from the bank and tries to give you the best possible suggestion for accepting the transaction.

QuickBooks follows some basic logic to help you categorize and add transactions to QuickBooks as efficiently as possible.

Bank Data Overview

When QuickBooks receives your bank data, it:

- Looks for matches among the transactions you already entered into QuickBooks
- Remembers categorizations you made before, and applies those categorizations to similar transactions
- Suggests logical categories based on bank descriptions
- Checks for rules you created to handle certain transactions in a particular way

After setting up your online bank feed connection, QuickBooks will display each of the connected accounts as cards at the top of the Banking Centre window.

Click the card of the account that you want to work with. After clicking the account, the corresponding transactions will be displayed in the space below.

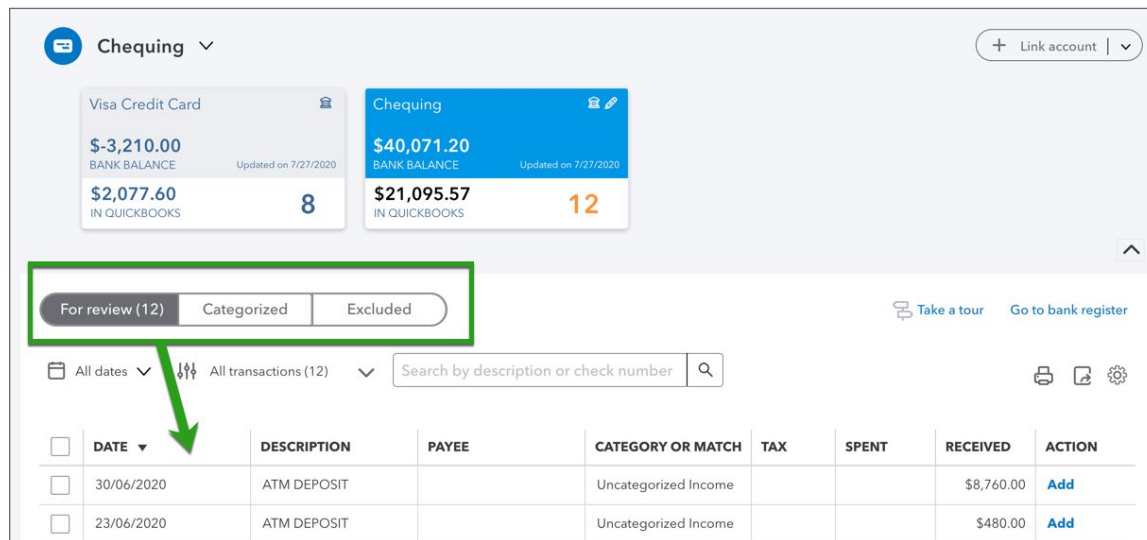

The screenshot shows the QuickBooks Online Banking Centre interface. The sidebar on the left contains navigation options: Dashboard, Banking, Expenses, Invoicing, Cash Flow, Projects, Payroll, Reports, Taxes, Mileage, Accounting, My Accountant, Apps, and Time Tracking. The main area is titled 'Green Tree Landscapes' and has tabs for 'Banking', 'Rules', and 'Receipts'. The 'Banking' tab is active, showing a 'Mastercard Capital One' account card. The card displays a balance of \$2,499.01 and a suggested balance of \$2,541.62. Below the card, there are tabs for 'For review (51)', 'Categorized', and 'Excluded'. The 'For review' tab is active, showing a list of transactions for review. The transactions are listed in a table with columns: DATE, DESCRIPTION, PAYEE, CATEGORY OR MATCH, TAX, SPENT, RECEIVED, and ACTION. Three transactions are shown: 27/08/2020 for KLARNA *PAYMENTS, 26/08/2020 for 7-Eleven, and 26/08/2020 for Amazon. Each transaction has an 'Add' button in the ACTION column.

	DATE	DESCRIPTION	PAYEE	CATEGORY OR MATCH	TAX	SPENT	RECEIVED	ACTION
<input type="checkbox"/>	27/08/2020	KLARNA *PAYMENTS		Uncategorized Expense		\$54.12		Add
<input type="checkbox"/>	26/08/2020	7-Eleven		Meals and entertainment		\$0.53		Add
<input type="checkbox"/>	26/08/2020	Amazon		Miscellaneous		\$14.06		Add

For Review—Individual transactions are downloaded to the Banking Centre window. They display in the **For Review** tab. This means that the transactions have not been added to your accounts but are waiting for your review and approval. You'll use this tab to review and add the transactions.

Categorized—After reviewing your transactions and categorizing them to the appropriate accounts, they will display in the **Categorized** tab.

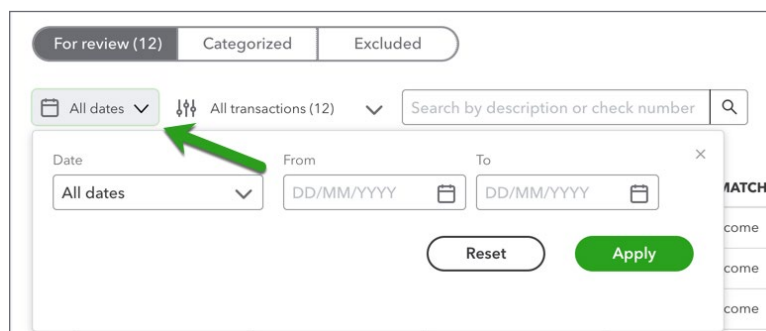

Excluded—If you find transactions that are not required in QuickBooks or if you find that you've entered multiple transactions already, you can exclude transactions. After excluding transactions, they will be moved to the **Excluded** tab.

QuickBooks Filters & Search

To help you work more efficiently with your banking transactions, QuickBooks lets you filter by Dates.

Choose from preset **Dates** or enter a custom date range. QuickBooks displays the transactions for your chosen date range.

You can add additional filters by the status of the transaction. Click the **All Transactions** menu and choose from the following options:

All Transactions—preset option to display all transactions available for review

Recognized—this filter displays only transactions that are recognized like transactions where a rule is applied or if QuickBooks makes a recommendation based on a previously categorized transaction

Matched—this filter displays only transactions where matching records have been found

Transferred—displays only transactions indicating a transfer transaction between two bank accounts within QuickBooks

Rule Applied—display transactions where a rule has been applied

NOTE QuickBooks lets you **Search by description or cheque number** if required.

DATE	PAYEE	CATEGORY OR MATCH	TAX	SPENT	RECEIVED	ACTION
30/06/2020		Uncategorized Income			\$8,760.00	Add
23/06/2020		Uncategorized Income			\$480.00	Add
23/06/2020		Uncategorized Income			\$1,800.00	Add

Bank Rules

You can create rules that automatically categorize transactions for you. The more QuickBooks uses your bank rules, the better it gets at categorizing. After a while, it can even scan transactions and add details like payees. You can set conditions for transactions that include details such as **Bank Text, Descriptions, and Amounts**.

To Create a Bank Rule:

1. On the **Banking Centre**, click the **Bank Rules** tab.
2. Click **New Rule**.

Use rules to save time

Make rules for your frequently occurring transactions and tell QuickBooks exactly what should happen when conditions are met. [Create a rule](#)

0-0 of 0 items

3. Name the rule when you answer the question **What do you want to call this rule?**
4. Choose how to apply the rule. Does it apply to **Money Out** or **Money In**? Choose which accounts the rule will apply to.
5. Choose if you want to include additional conditions. You can choose **All** or **Any**.

6. Choose additional conditions including the options, **Bank text**, **Description**, or **Amount**. Add other conditions as needed.
7. Under the **Then Assign** section you can choose how to enter the transaction in QuickBooks. Choose the **Transaction Type**.
8. Choose the **Category** (Account) for the transaction.
9. Enter the **Payee** (optional).
10. Choose the preset **Tax** that is applied to the transaction.
11. Click **Save**.

NOTE If you enable the option labeled **Automatically confirm transactions this rule applies to**, QuickBooks Online adds the transaction without waiting for user approval.

Automatically confirm transactions this rule applies to

Categorizing Transactions in QuickBooks

Now that you know what the banking windows look like and what the terminology means, it's time to get to work categorizing your downloaded transactions. QuickBooks will do some of the categorization work for you. After downloading new transactions, QuickBooks goes through a logical process to categorize your transactions.

Matched Transactions

When QuickBooks downloads bank data, it tries to find a match with any QuickBooks transactions you created manually. If it finds a likely match, it lists the transaction in the Recognized tab and displays the words "1 similar record found" in green text.

If you're satisfied with the match information shown in the row, simply click **Match** at the end of the row to move the bank item into QuickBooks and match it with the existing QuickBooks transaction.

<input type="checkbox"/>	20/10/2019	Coffee Place		Uncategorized Expense		\$20.50		Add
<input type="checkbox"/>	19/10/2019	Supplies Depot	Supplies Depot	Uncategorized Expense		\$35.88		Add
<input type="checkbox"/>	06/10/2019	Jennifer Hargreaves	Jennifer Hargreaves	1 record found Expense 04/10/2019 \$245.80 Jennifer Hargreaves		\$245.80		Match
<input type="checkbox"/>	29/09/2019	Supplies Depot	Supplies Depot	Uncategorized Expense		\$24.86		Add
<input type="checkbox"/>	28/09/2019	Bank of AnyCity	Bank of AnyCity	2 records found			\$1,000.00	View

To review an item before matching:

1. Click the transaction row. The row expands to show you more details.
2. Review the details in the expanded row.
3. When you're satisfied with the details, click **Match**.

<input type="checkbox"/>	19/10/2019	Supplies Depot	Supplies Depot	Uncategorized Expense		\$35.88		Add
<input type="checkbox"/>	06/10/2019	Jennifer Hargreaves	Jennifer Hargreaves	1 record found Expense 04/10/2019 \$245.80 Jennifer Hargreaves		\$245.80		Match
<div> <input type="radio"/> Add <input checked="" type="radio"/> Match Not sure? </div> <div> Record found Expense 04/10/2019 \$245.80 Jennifer Hargreaves <div>Find other records</div> <div>Match</div> </div> <div> BANK DETAIL Jennifer Hargreaves , Anytown </div>								

NOTE The transaction moves to the **Categorized** tab.

NOTE To identify a MATCH in QuickBooks Online, it looks for different elements based on the transaction type.

For **bank deposits and credits**, it looks at:

- Both deposited and undeposited payments:
 - Payments received against invoices (on the Receive Payment page)
 - Sales receipts
 - Deposits or payments you entered yourself in the bank or credit card account history in QuickBooks
 - Deposits you entered from the Deposits page
- Journal entries and other positive or credit transactions you created in QuickBooks
- Open invoices and invoices that are not fully paid

For **bank withdrawals and debits**, it looks at:

- Payments you entered for a supplier
- Expenses you entered using the +New menu
- Expenses or debits you entered directly in the bank or credit card account history in QuickBooks
- Journal entries and other negative or debit transactions you created in QuickBooks

In some cases, you may need to search QuickBooks for more than one transaction that may match a downloaded transaction.

1. In the navigation bar, click **Banking**.
2. Click an account from the cards at the top of the page.
3. Click a transaction that you know has multiple possible matches.
4. Click the **Find other records** button.

<input type="checkbox"/>	19/10/2019	Supplies Depot	Supplies Depot	Uncategorized Expense		\$35.88		Add
<input type="checkbox"/>	06/10/2019	Jennifer Hargreaves	Jennifer Hargreaves	Expense		\$245.80		Match
<div> <div>1 record found</div> <div>Expense 04/10/2019 \$245.80 Jennifer Hargreaves</div> </div>								
<div> <input type="radio"/> Add <input checked="" type="radio"/> Match Not sure? </div>								
<div> <div>Record found</div> <div>Expense 04/10/2019 \$245.80 Jennifer Hargreaves</div> <div>Find other records</div> <div>Match</div> </div>								
BANK DETAIL Jennifer Hargreaves , Anytown								
<input type="checkbox"/>	29/09/2019	Supplies Depot	Supplies Depot	Uncategorized Expense		\$24.86		Add

5. In the **Match transactions** window, select the transactions that add up to the downloaded transaction amount.

QuickBooks Suggestions

The more that you use QuickBooks Online banking, the more QuickBooks learns how you categorize your transactions. As it learns, QuickBooks begins to follow what we call "QuickBooks Rules". While they are not actual rules, QuickBooks uses your history to automate the categorization of your banking transactions.

To add a transaction where a "QuickBooks" is suggested click **Add** under the **Action** column.

<input type="checkbox"/>	09/11/2019	Supplies Depot	Supplies Depot	RULE Office expenses	HST ON (Purchases)	\$24.68	Add
<input type="checkbox"/>	21/10/2019	Supplies Depot	Supplies Depot	RULE Office expenses	HST ON (Purchases)	\$18.60	Add

Uncategorized Transactions

After QuickBooks completes the logic and doesn't find any matches, rules, or suggestions to make, it lets you categorize the transaction. When QuickBooks does not know what to do with a transaction, it will be labeled as:

- **Uncategorized Income**
- **Uncategorized Expense**

To review and categorize the uncategorized transactions:

1. Click the within the row of the transaction. The Description column gives you a clue about the type of transaction it is.
2. QuickBooks Online may display a matching customer or supplier name, if one exists. If you don't select or add a name, QuickBooks Online adds the transaction to the register without a name/ payee when you accept the transaction.

- Choose a specific category from the list. You can create additional categories (from your “chart of accounts” in QuickBooks Online) as needed. You can also split a transaction between different categories (see section below).

The screenshot shows the QuickBooks Online Banking interface. At the top, there are tabs for "Banking", "Rules", and "Receipts". Below these are buttons for "For review (8)", "Categorized", and "Excluded". On the right, there are links for "Take a tour" and "Go to bank register". Below the tabs, there are filters for "All dates" and "All transactions (8)", a search bar "Search by description or check number", and icons for print, share, and settings. A table with columns: DATE, DESCRIPTION, PAYEE, CATEGORY OR MATCH, TAX, SPENT, RECEIVED, and ACTION is shown. One row is visible with the date 08/07/2020, description "Supplies Depot", payee "Supplies Depot", category "Uncategorized Expense", and amount \$24.68. Below the table, a modal is open for categorizing the transaction. It has three radio buttons: "Categorize" (selected), "Find match", and "Record as transfer". There are dropdown menus for "Payee" (Supplies Depot), "Category" (Uncategorized Expense), "Customer/project" (Select customer/project), "Tax" (Select tax), and "Class" (Select class). There is also a "Billable" checkbox. A "Memo" field is at the bottom. At the bottom of the modal, there are buttons for "Add attachment", "Create a rule", "Exclude", "Split", and "Add".

DATE	DESCRIPTION	PAYEE	CATEGORY OR MATCH	TAX	SPENT	RECEIVED	ACTION
08/07/2020	Supplies Depot	Supplies Depot	Uncategorized Expense		\$24.68		Add

- Select a class or location, if these fields appear in the row. These fields only appear if you have set up classes or locations in your company settings. (Optional)
- When you're satisfied with the information in the row, click **Add**. The transaction moves from the **For Review** tab over to the **In QuickBooks** tab.

Assign a single payee, category, class, or location to multiple transactions:

- Click the checkbox for each transaction row you want to assign to the same accounting information (payee, category, class, location). You can choose multiple rows by selecting the first, holding down shift, and clicking on the last.
- Click **Batch Actions** drop-down arrow at the top of the list, then click **Modify Selected** and make the changes you want.
- Click **Apply**.
- The transactions move from the **For Review** tab over to the **Categorized** tab.

Assigning multiple categories to a single transaction (**Split**):

There may be times when you want to split a transaction, either a deposit or expense, between different categories. To split a transaction:

- Click within the row of the transaction and select **Split** towards the right.

2. In the first line, select a category from the Account list and then enter an amount.
3. Click in the second row, repeat step 3.
 - To add more rows, click **Add Lines**.
 - To delete a row, click the trash can that appears to the right of the row.
 - Click **Reset** to start the Split Transaction over.
4. When the total amount matches the downloaded amount, click **Save** and **Add**.
5. The transaction moves from the **For Review** tab over to the **Categorized** tab.

Accept Multiple Transactions

You can accept multiple transactions at the same time.

1. Review and categorize several transactions, but don't accept them.
2. Reviewing can be more efficient if you, click a column header, such as Description, to sort similar transactions together.
3. Click the **checkbox** to the left of the date column for each row you want.
4. At the top of the list, click the **Select** button.

5. All the selected transactions move from the **For Review** tab to the **Categorized** tab.

The screenshot shows the QuickBooks Online Banking interface for 'Sample Company'. The left sidebar contains navigation links: Dashboard, Banking (selected), Expenses, Sales, Projects, Payroll, Reports, Taxes, Mileage, Accounting, and My Accountant. The main area has tabs for 'Banking', 'Rules', and 'Receipts'. Below these are two 'IN QUICKBOOKS' tabs. The 'For review (6)' tab is active, showing a table of transactions. A dark overlay at the top of the table indicates '4 items selected' with buttons for 'Accept', 'Update', and 'Exclude'. The table has columns: DATE, DESCRIPTION, PAYEE, CATEGORY OR MATCH, TAX, SPENT, RECEIVED, and ACTION. The first four rows are selected with checkboxes. The fifth row is highlighted with a green background and a 'Match' action. The sixth row is highlighted with a green background and a 'View' action.

Edit a Transaction

You can change how you assigned or categorized a transaction. You can also undo an acceptance, and even exclude a transaction from being included in your business finances.

To change an assignment or category for a transaction:

1. On the **For Review** tab, click a row to select it.
2. Click the **Category or Match** drop-down list and select a category from the **Account** list.

NOTE You can't change the assignment or category from the **In QuickBooks** tab. You can only change them on the **For Review** tab or in the corresponding QuickBooks transaction.

To undo an accepted transaction:

1. From the **Categorized** tab, click **Undo** to move transactions back to the **For Review** tab.
2. For multiple transactions, check the box to the left of all transactions then click the **Batch Actions** drop-down and click **Undo**. The transaction will now display in the **For Review** tab.

The screenshot shows the QuickBooks Banking interface for 'Sample Company'. At the top, there are tabs for 'Banking', 'Rules', and 'Receipts'. Below these are two account balance cards: 'Visa Credit Card' with a balance of \$-3,210.00 and 'Chequing' with a balance of \$40,071.20. Both are updated on 7/29/2020. Below the cards, there are three tabs: 'For review (2)', 'Categorized', and 'Excluded'. The 'Categorized' tab is active. A dark grey bar at the top of the transaction list shows '5 items selected' and an 'Undo' button. A green arrow points to this 'Undo' button. Below the bar is a table of transactions.

	DATE ▼	DESCRIPTION	AMOUNT	ADDED OR MATCHED	RULE	ACTION

▶ Account Reconciliation

Reconciling your bank and credit card accounts in QuickBooks should be completed monthly. A reconciliation lets you compare the transactions on your bank account statement with the transactions in QuickBooks. It also lets you compare the statement ending balance with the cleared balance in QuickBooks. Completing the account reconciliation every month ensures that your QuickBooks accounts are accurate and up to date.

Reconcile a Connected Account

Using the bank feed to enter and categorize transactions will help you automate your bank and credit card account reconciliations. If you enter every transaction downloaded from the bank feed all your transactions will automatically be marked as reconciled.

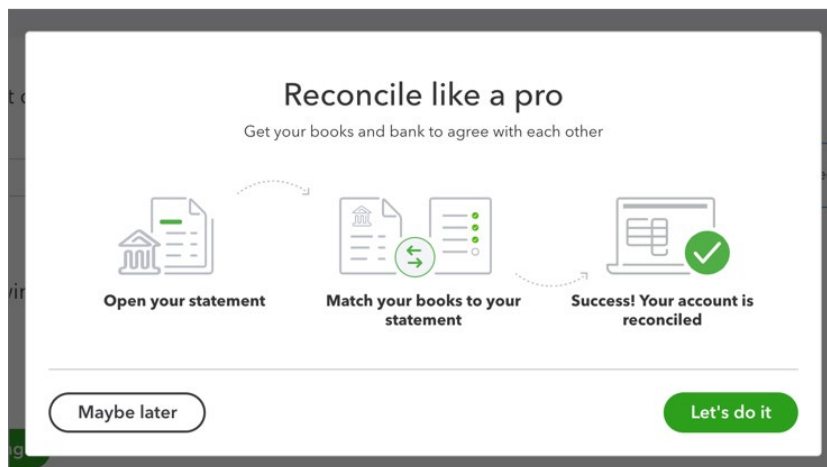

To reconcile a connected account:

1. Click the **Gear** icon and then click **Reconcile**.

2. Click **Get Started**.

3. Click **Let's do it**.

4. Choose the **Account** to reconcile.

5. Enter the **Ending Balance**. This information will come from your bank or credit card statement.

6. Enter the **Ending Date** listed on the statement.

7. Click **Start Reconciling**.

Start reconciling

We don't import statements for this account. You need to get it manually.

8. QuickBooks opens the Reconcile window. If you've entered every transaction on your bank statement using the bank feed, the account will be auto reconciled. You'll notice that the transactions entered from your bank feed will be marked with a special statement icon (see column to the left of Charge).

9. Click **Finish Now**.

- Click **Done** to complete the reconciliation.

Manual Account Reconciliation

The manual account reconciliation means that you will manually select all the transactions in QuickBooks that appear on your account statement. This requires a detailed review of your monthly statement. Every transaction appearing on your statement including cheques, payments, deposits, refunds, etc. will be selected in QuickBooks Online.

To get started with your reconciliation go to the **Gear** icon and click **Reconcile**.

Add the following information

Beginning balance	Ending balance *	Ending date *
0.00		

Enter the service charge or interest earned, if necessary

Date	Service charge	Expense account
	0.00	Bank charges

Date	Interest earned	Income account
	0.00	Interest earned

NOTE We don't import statements for this account. You need to get it manually.

NOTE Alternatively, you can click **Accounting** on the left-hand navigation bar to access the account reconciliation.

- Enter the **Ending balance**. This information will come from your monthly statement.

2. Enter the **Ending date**. This will also come from your monthly statement. This date is used to limit the transactions on the reconcile window to transactions before this date.
3. Click **Start Reconciling**.

NOTE If you're required to enter a **Service** charge for this account, enter the charge in the appropriate field. Add the **Expense account** to track the charge.

If you've earned interest income, you can track the amount in the **Interest earned** field. This also requires an income account to track the amount.

On the Reconcile window there are several areas of importance.

The top of the Reconcile window displays both the statement information as well as the transactions that are marked as cleared while you reconcile. Most importantly, it displays the Difference.

The difference represents the difference between the **Cleared Balance** in QuickBooks and the **Statement Ending Balance**. The goal of the reconcile process is to have a \$0.00 difference. Once you get to a \$0.00 difference you know that you've been successful reconciling the account.

Marking Transactions as Reconciled

After modifying the Reconcile window to display the way you want it to, you're now ready to reconcile. This means selecting every transaction in QuickBooks that displays on your bank

statement. When you see a transaction on your bank statement that matches a QuickBooks transaction, select the transaction in the far-right column.

07/02/2019	Deposit	- Split -			35,000.00	<input type="radio"/>
10/02/2019	Cheque	2001	- Split -	Cass Hayden	847.50	<input checked="" type="radio"/>
10/02/2019	Cheque	2002	- Split -	Organization o...	367.25	<input type="radio"/>
11/02/2019	Cheque	2003	- Split -	Mark Howard	1,412.50	<input type="radio"/>
13/02/2019	Cheque	2004	- Split -	Town Electric &...	177.34	<input checked="" type="radio"/>
13/02/2019	Cheque	2005	- Split -	City Water Co	60.17	<input type="radio"/>
18/02/2019	Cheque	2006	- Split -	Venue Rental	5,650.00	<input checked="" type="radio"/>
14/03/2019	Cheque	2007	- Split -	Mark Howard	1,412.50	<input checked="" type="radio"/>

Select every transaction displaying on your statement. With every selection, QuickBooks gets closer to reconciling your account. As you select transactions you'll see the **Difference** amount get closer to **\$0.00**.

After you have marked all the cleared transactions from your statement and your difference is at **\$0.00**, you're ready to complete the reconcile.

1. Click **Finish Now**.

▶ Transfers in QuickBooks

You can transfer funds between most balance sheet accounts in your chart of accounts (except between A/P and A/R accounts). Common examples include transfers from chequing to savings accounts or from a bank account to a credit card account (credit card payment).

To create a transfer in QuickBooks:

1. Click the **Create** menu.
2. Click **Transfer**.
3. Enter the **Date**.
4. Enter the **Transfer Funds from** account.
5. Choose the **Transfer Funds to** account.

The screenshot shows the QuickBooks 'Transfer' form. The form is titled 'Transfer' in the top left corner. In the top right corner, there are links for 'Help' and a close button. The form is divided into several sections. On the left, there are dropdown menus for 'Transfer Funds From' (set to 'Chequing') and 'Transfer Funds To' (set to 'Savings'). Below these is a 'Currency' dropdown set to 'CAD Canadian Dollar'. The 'Transfer Amount' is entered as '5,000.00'. To the right of the amount, the 'Date' is set to '31/12/2019'. Below the date, there is a 'Memo' field. On the right side of the form, there are two balance displays: 'Balance \$21,095.57' and 'Balance \$0.00'. At the bottom of the form, there is an 'Attachments' section with a maximum size of 25MB. Below this is a text box with the instruction 'Drag/Drop files here or click the icon' and a link 'Show existing'. At the very bottom, there are buttons for 'Cancel', 'Clear', 'Make recurring', and 'Save and new'.

6. Enter a **Memo** to remind you of the reason for this transfer.
7. Click **Save**.
