NOTES

Enter Products into Inventory

Many small businesses that stock inventory don't know the number of units they have on hand or on order at any given time and have no way of getting that information quickly. Using QuickBooks to manage your inventory, you'll be able to track the number of items in stock and the value of your inventory after every purchase and sale.

As you order inventory items, receive the items, and later sell the items from inventory, QuickBooks keeps track of how much inventory you have on hand. You will know the status of your inventory and will have a more accurate picture of your business's assets.

Enter a product into inventory:

1. Click the **Items & Services** icon on the home page.
2. Click the **Item** button at the bottom left and choose **New**.
3. In the **Type** field, choose **Inventory Part** from the drop-down list.
4. Enter the item name in the **Item Name/Number** field.
5. In the **Description on Purchase Transactions** field, enter the description you would like to appear on purchase orders, bills, and checks.
6. In the **Cost** field, enter your cost for the item.
7. Enter the appropriate **Cost of Goods Sold** account in the **COGS Account** field.

The screenshot shows the 'New Item' window in QuickBooks. The window title is 'New Item'. The 'TYPE' dropdown is set to 'Inventory Part' with the description 'Use for goods you purchase, track as inventory, and resell.'. The 'Item Name/Number' field contains 'Premium Doorknobs'. The 'Subitem of' checkbox is unchecked. The 'Manufacturer's Part Number' field is empty. The 'UNIT OF MEASURE' section has an 'Enable...' button. The 'PURCHASE INFORMATION' section includes: 'Description on Purchase Transactions' (Premium Doorknobs), 'Cost' (50.00), 'Purch Tax Code' (S), 'COGS Account' (Cost of Goods Sold), and 'Preferred Vendor'. The 'SALES INFORMATION' section includes: 'Description on Sales Transactions' (Premium Doorknobs), 'Sales Price' (75.00), 'Tax Code' (S), and 'Income Account' (Construction Income). There is an 'Item is inactive' checkbox which is unchecked. The 'INVENTORY INFORMATION' section includes: 'Asset Account' (Inventory Asset), 'Reorder Point (Min)' (10), 'Max' (empty), 'On Hand' (15), 'Total Value' (750.00), and 'As of' (08/31/2016). On the right side of the window, there are buttons for 'OK', 'Cancel', 'Next', 'Notes', 'Custom Fields', and 'Spelling'.

8. (Optional) In the **Preferred Vendor** field, choose a preferred vendor.
9. In the **Sales Price** field, enter the price you would like to appear on sales orders, sales receipts, estimates, and invoices.
10. Click the Tax Code drop-down and select the appropriate tax code.
11. In the **Income Account** field, assign the appropriate income account for when the item is sold.
12. Enter the appropriate asset account in the **Asset Account** field.
13. In the **Reorder Point** field, enter the point at which you would like QuickBooks to remind you to reorder the item.
14. Click **OK**.
