

Intuit's climate-positive commitment

Powering prosperity around the world includes taking care of our planet. We're committed to being climate-positive, moving beyond minimizing harm toward a more sustainable future.

We set ambitious goals for our operational footprint and hit all of them early:

80%

reduction of carbon footprint of buildings (5 years early)

50%

reduction of operational footprint (5 years early)

100%

renewable electricity for global operations (10 years early)

2020

We asked ourselves

How can we do more?

intuit

The Goal

We know being carbon neutral is not enough. **By 2030**, we've committed to help the planet beyond our own walls and scale our positive impact.

2030

We're working to **remove 2 million** metric tonnes of carbon from the atmosphere, equal to taking 430,000 cars off the road for one year.

2 Million

metric tonnes of carbon reduced

CUSTOMERS

EMPLOYEES

COMMUNITIES

How we get there

Through **strategic partnerships**, we're empowering our employees, customers and communities to commit to climate solutions like **waste reduction and renewable energy**.

Climate change is bigger than us. Together, we can build a more sustainable future.
